

# 2022 Annual State of Nursing Report

## About the Report

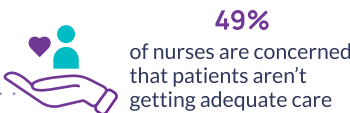

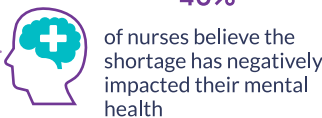

The ShiftMed Annual State of Nursing Survey was conducted by Wakefield Research among 500 U.S. nurses, including 400 RNs, 50 LPNs, and 50 CNAs, between August 4 and August 15, 2022, using an email invitation and an online survey. The data was weighted.

## Top Concerns Among Nurses

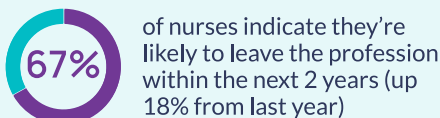

## Nursing Shortage Impact

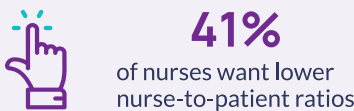

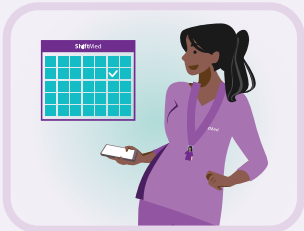

## Mass Nursing Exodus

As the nursing shortage continues, more nurses want to leave the profession. Nurses are also less likely to recommend the profession to family and friends.

## What Nurses Want

Nurses who plan to leave the profession may reconsider under the right circumstances—making it clear the industry needs to take better care of its healthcare professionals.

## ShiftMed's Solution

As the #1 nursing jobs app on the App Store, ShiftMed's on-demand platform dramatically streamlines the delivery of care services and enables healthcare providers to access credentialed, W-2 workers to fulfill their staffing needs faster than any other solution by offering:

Competitive wages and on-time payment through Next Day Pay®

Guaranteed payment through Guaranteed Shifts®, even if a shift gets cancelled last minute

Flexibility for nurses to customize their own schedules to work when and where they want

Access to more than 100,000 credentialed W-2 nurses in 110 U.S. markets, ensuring properly staffed healthcare facilities
